HEAVIEST RAIDS ON ITALIAN RAILWAYS

Attacks Succeed In Severing Communications Between North And South Italy

LONDON, Aug. 22.

Reuter's special correspondent at Allied Headquarters in North Africa cables: Both the southern and eastern Naples Railway lines have been cut as a result of the heaviest air attacks which yesterday were concentrated against the Italian Railways. In attacking railway yards at Villa Literno which lies six miles west of Aversa and 10 miles north west of Naples, Allied bombers battled against heaviest opposition. They shot down 25 enemy fighters.

Yesterday's air attacks crowned the efforts of the past three days aimed at severing all rail communications between north and south Italy. The successes at Averso and Vila Literno cut the eastern and southern lines via Naples. Battipaglia and Salerno raids prevent diversion of trains inland to avoid a bottleneck. Attacks on Benevento and Foggia have destroyed communications through the centre and round the east coast of Italy.

BITTEREST AIR BATTLE

Resistance put up by Axis fighters resulted in one of the bitterest air battles of the war. Forty or 50 challenged marauders which attacked targets in Villa Literno and a running dogfight lasted an hour and a half. Fighters were decidedly aggressive, and made repeated attacks. On the other hand Flying Fortresses over Aversa had a quiet trip. They encountered only a few fighters, none of whom came within range. They bombed the railway yard methodically tearing up tracks and setting fire to warehouse and depot.

YARDS AT CANCELLO ATTACKED

CAIRO, Aug. 22.—To-day's Middle East air communique says: "Liberators of the Ninth United States Army Air Force attacked marshalling yards at Cancello, north-east of Naples in daylight yesterday. Strong fighter opposition was encountered and Liberator crews claim 25 destroyed in combat. From these and other operations two Allied aircraft are missing.

ENEMY LOSE 40 AIRCRAFTS

From Reuter's Special Correspondent, Cairo: Scores of yellow-nosed Messerschmitts and Fockwulf fighters furiously and repeatedly attacked Liberators the whole way from the coast to the target near Naples and back again during yesterday's bi daylight raid. The Liberators had to pound their way through waves of fighters who attempted to block their bombing runs, but tons of high explosives found their targets and only two Liberators from approximately 70 taking part, failed to return against nearly 40 probable enemy losses. The Liberators dropped leaflets as well as bombs and one pilot reports when the bundles unfolded and began to flutter in the wind enemy fighters ducked wildly to avoid them.

AVERSA YARDS ATTACKED

Allied Headquarters North Africa, August 22.

To-day's Air "Communique" states: "North African Air Forces continued their attack on railway communications in Southern Italy. Medium-bombers with fighter escort attacked railway yards at Villa Literno. A formation of enemy fighters were encountered over the target and 25 of them were shot down Heavy bombers also with fighter escort attacked railway yards at Aversa At both these targets, many hits were scored on railway tracks and fires were started. Railway targets in Southern Italy were attacked by intruder aircraft on the night of August 20-21, and yesterday fighter bombers carried out attacks on enemy motor transport. Night bombers last night attacked railway yards at Battipaglia. One enemy aircraft was shot down on the night of August 20-21. Six of our aircraft are missing from these operations".

YARDS SET ABLAZE

CAIRO, Aug. 22.—A United States air "communique" recording Liberator heavy-bombers' attack on air depot and marshalling yards at Cancello and the aerodrome at Pomigliano Darce, both near Naples during daylight on Saturday says: "At Cancello hits were observed on a large warehouse, railway station and on a factory. The entire marshalling yards were well covered by bursts which left numerous fires burning. Cloud conditions obscured the results of the attack on the aerodrome at Pomigliano Darce.

Swarms of fighters, including Messerschmitt 109 and Fockewulf 190s were destroyed with a dozen others probably destroyed or damaged. From these operations two of our aircraft are missing".—Reuter.

Huge Axis Losses In N. Africa And Sicily

From Reuter's special correspondent at Allied Headquarters North Africa: The Axis defeats in North Africa and Sicily have cost them close on half a million men. From the day of the Allied landing in French North Africa on Nov. 8, 1942 to August 10 last Axis killed, wounded and missing total at least 4,80,000. The final figure for the Sicilian campaign in still to come but rows of graves lining Sicilian mountain roads and thousands of Germans in prison camps throughout the island indicate the severity of Axis losses. Whatever the total announced, it will not include unnumbered thousands of Germans who die at the bottom of the Straits of Messina. As General Eisenhower said, a few days ago, the number drowned will probably never be known —Reuter.

ITALY'S PLIGHT

Completely Disorganised

From Reuter's special correspondent in Zurich August 22: Reports reaching here from the Italian frontier while stating Marshal Badoglio's regime is becoming no more popular as time goes on, say that in large cities half emptied of their inhabitants, there has been no opportunity of organising the opposition to the Badoglio regime more especially as the cities have to a large extent lost contact with each other

The country might be described as living in a state of complete disorganisation. The Italian man in the street wants peace at any price, but is powerless to do anything to obtain it, it is added. More and more German troops are pouring into northern Italy, according to dispatches published here. They are completing the line of fortifications along the River Po. At the same time, the Allies are slowly but surely closing in on Southern Italy.—Reuter.

MOVE TO MAKE ROME OPEN CITY

ROME, Aug. 22.—The Italian News Agency announced that enemy planes flew over Rome on Friday morning dropping leaflets and flares. The agency added: No anti-aircraft guns went into action. No night fighters were sent up and no searchlights were used. "This was in accordance with the measures about to be adopted to make Rome an open city."

Clashes Between Nazis And Danes

From Reuter's special correspondent. Stockholm, Aug. 22. Clashes between Germans and Danes at Odense on Fyen island followed a sit down strike by a number of workers on A. P. Moellers Wharp according to the Swedish newspaper "Allehanda." The workers went on strike as a protest against the placing of German guards after the previous sabotage attempts. When the Germans refused to remove the guards, sympathy strikes broke out everywhere in the town. Germans proclaimed a state of emergency but strikes and clashes continued and they were forced to give in.—Reuter.

TO INCREASE WHITE RACE

British Commonwealth To Play Big Role?

LONDON, Aug. 22.

There is deep significance in Canada of Quebec as the place where the final touches are put to plans for the reconquest and liberation of Europe, says the "London Observer", to-day.

Immigrants from all over Europe, it points out, have contributed to the young and vigorous nations, which make up the British Commonwealth. British principles of tolerance, liberty and law "have succeeded in reconciling and uniting those very peoples which on the European Continent have never ceased to quarrel and make war".

The Empir has space and needs people: Europe has people and needs space.

"To survive as white communities and to be strong enough for self-defence, all the great Dominions must increase their populations far beyond what their own birthrate or immigration from Britain could provide.

Europe, on the other hand, needs an outlet for her population. Since she closed her door, the population pressure especially in eastern and southern Europe, has increased to explosion point. None but the great Dominions could take America's place in absorbing Europe's human surplus. It is for Britain to act as the conduit between them and Europe".—Reuter

CAN SENTENCES IN LIEU OF FINES BE CONCURRENT?

LAHORE, August 22. "Can two sentences imposed in default of payment of fine be ordered to run concurrently? This interesting point of law has been raised in the Lahore High Court in a reference made by the Superintendent of the Old Central Jail, Multan in the case of Mr. Yash Dev, a prominent student worker of Lahore.

Yash Dev was convicted by Ch. Mohammed Isheq, a Lahore Magistrate under Rule 56 and Rule 38 of the Defence of India Rules for participating in a unlawful procession and shouting slogans and was sentenced to pay fines of Rs. 75/ or in default to undergo 6 months' imprisonment and Rs. 25 or in default to undergo 4 months' imprisonment. The sentences imposed on both the counts was ordered to run concurrently from January 30, 1943.

Since Mr. Yash Dev, has completed his sentences of 6 months, the Superintendent of the Old Central Jail, Multan, has questioned the legality of the concurrent sentence in lieu of fines.

The hearing of the reference has been adjourned till after the vacation.—United Press.

FOOD GRAINS FOR SERVICES

India Govt. Gives "Annual Requirements"

NEW DELHI, Aug. 22.

It has often been publicly alleged, says a Press Note, that the requirements of the Defence Services are a very severe drain on India's resources of foodgrains. The Government of India wish to state that the total annual requirements of the Defence Services in India of wheat and rice are 500,000 tons and 144,000 tons respectively.

To see these figures in proper perspective, it should be observed that they represent only one-eighth of the total amount of wheat produced in a year in the Punjab alone, and only one-sixtieth of the total average annual production of rice in Bengal. If it is necessary for any operational reasons to transport any quantity of those Defence Services foodgrains overseas, that quantity comes out of the quotas mentioned above and is not additional to them.—A. P.

The Committee have opened 11 cheap canteens in Calcutta and will shortly be opening more such centres. It is also starting work in other areas in the Province.—A. P.

Over 300,000 German Officers & Men Killed

Balance-Sheet Of Soviet Summer Offensive

MOSCOW, Aug. 22.

Last night's Soviet special announcement says: "During summer offensive between July 5 and August 20, our troops on all sectors of the Soviet-German front destroyed 4,600 enemy planes, 6,400 tanks, 3,800 guns and over 20,000 lorries. The enemy lost in killed alone over 300,000 officers and men.

Taking into consideration that the number of wounded in the German Fascist Army exceeds by two or two and half times the number of killed, it must be estimated that the enemy losses in killed and wounded for that period are about one million officers and men.

During the same period our troops captured 857 tanks, 1,274 guns of various calibre including self-propelled guns, 3,429 machine-guns and 4,230 lorries. The number of prisoners taken was 25,600."

ADVANCE ON KHARKOV

A supplement to to-night's Soviet 'communique' says, "North-west of Kharkov our troops advanced and occupied several inhabited localities. Several losses were inflicted on the enemy.

In the Bryansk direction, our troops fought engagements to improve their positions." The supplement said that the Germans brought up reserves south-west of Spas Demensk and launched a counter-attack in an attempt to stem the Russian advance, but were repelled with heavy losses. On the Leningrad front, Russian units wiped out about 400 Germans.—

In the increasingly offensive defence of the Alaskan area, the occupation of Kiska marks the successful culmination of these operations."

SOVIET'S FRESH GAINS IN KHARKOV REGION

MOSCOW: It is officially announced that the Russians have recaptured several more places in the Kharkov direction.

A special communique says the Germans have lost at least one million men in killed and wounded between July 5 and August 20. The communique also says, in the same period the Russians destroyed 4,600 German planes, 6,400 tanks and 3,800 guns.

The Russians have also captured 8,500 tanks, 1,274 guns and took 25,600 prisoners, the special communique says.—Reuter.

SOVIET OFFENSIVE SLACKENING IN SOME SECTORS

From Reuter's Special Correspondent.

MOSCOW, August 22.—The Soviet offensive after 50 days of continual fighting, is showing signs of slackening in some sectors. The most difficult state in any summer offensive has now been reached along the whole front from Smolensk to Kharkov and the Soviet drive is beginning to be a race against time.

KHARKOV, A HARD NUT

Kharkov is proving a harder nut to crack than was at first believed though the Red Army has gained some fresh vantage points in the steel arc compressing the city, the resistance of the Germans is still stiff.

On the Bryansk front, where Soviet troops are battling through thick forests, the Germans are also fighting back very hard in the Spasdemensk area.—Reuter.

Finns Want Separate Peace With U.S.S.R.

STOCKHOLM, Aug. 21.

A petition signed by some fifty prominent Finnish politicians representing the various parties was presented to President Risto Ryti, the Finnish President, yesterday demanding immediate positive measures for a separate peace with the Soviet Union, said the "Dagens Nyheter" quoting reports from Helsinki.—Reuter.

LITVINOV RELIEVED OF HIS POST

MOSCOW, August 22.

From Reuter's special correspondent, Quebec: It is understood President Roosevelt and Mr. Churchill were informed immediately of Stalin's decision to relieve Litvinov of his post. Officials refused to comment saying that they preferred to await further details.

NEW AMBASSADOR

The radio announced early to-day that M. Maxim Litvinov has been released from the post of Ambassador to the United States and M. Andrey Gromyko has been appointed in his place.

DIPLOMATIC MOVE

Reuter's special correspondent at Washington cables:—

Well informed observers said that it was premature to draw conclusions but the majority are inclined to believe that the move is part of the diplomatic reshuffle to strengthen the handling foreign policy by calling home men of the status of M. Litvinov and M. Maisky with the experience of British and American affairs. M. Litvinov returned to Moscow for consultations in May, though Madame Litvinov remained in Washington.

Reds Fight For Survival Of Britain Too

QUEBEC, Aug. 22.

Mrs. Churchill in a broadcast to Britain said to-day: "The Russians are no longer on the defensive. They have wrested the initiative from the enemy and to-day it is the Germans who are kept wondering which way the cat will jump."

The broadcast was an appeal for the aid to Russia Fund. Mrs. Churchill continued: "We must never forget, nor are we likely to forget, the heroic part played by the people of Russia in this tremendous struggle to prevent civilisation from being overwhelmed by new forces of darkness. They have fought for their own survival, but doing so they have fought also for ours. And they have achieved prodigies alike of sacrifice, of valour and of generalship."—Reuter.

UNPARALLELED PERVERSITY

Commenting on the recent manifesto signed by twenty-five British missionaries in India on the present deadlock, Mr. Pitt Bonarjee, Organising Secretary of the British India Commonwealth League, writes in the "Manchester Guardian": "The tragedy is that Indian politicians do not see that the war cannot wait to be won till after Indian constitution has been achieved." This betrays a lamentable ignorance of the real situation in India. No one in India has asked for any final solution of the constitutional problem before the war is won nor has any partial solution been demanded without any reference to war exigencies. All parties have demanded the immediate transfer of real power mainly because that is considered to be indispensable to enthuse the people and induce them to make all necessary sacrifices for the war. The real tragedy is that Government wish to have it both ways. They want heavy sacrifices from India but they do not want to give her any real power. They are carrying out Mr. Churchill's formula: "We mean to hold what is ours."

With regard to the missionaries' suggestion that "amnesty should be granted to all political prisoners" Mr. Bonarjee says: "I believe such an amnesty would be readily granted if a promise were given that subversive activities hindering war would cease." If Government do not want a settlement except on their own terms, they may say so. They will not then be pestered by British or Indian friends with suggestions. But if they are keen about a settlement, it can come only through friendly negotiations. These are not possible if vexatious undertakings about good behaviour are demanded from any party, it being understood that, if negotiations break down, Government are free to proceed against those who act or are about to act prejudicially and the people are free to safeguard constitutional rights in all legitimate and peaceful ways.

If a case has been made out for a reconsideration of the August resolution of the Congress, the least that commonsense and justice demand is that those who think so should have due access to Congress leaders in jail and the latter should have free access to one another. But, as Sir Tej Bahadur Sapru points out, "it is absurd to advise to meet together while large sections of politicals are behind the bars." Gandhiji has himself made overtures for a review of the whole situation. But, again in Sir Tej Bahadur's words, the opportunity to know Gandhiji's views "is denied to us by Mr. Amery and the Government of India with a perversity unparalleled in recent Indian history." Nor does Sir Tej Bahadur indulge in exaggeration when he says that the present Government has lost all sense of discrimination between friends and foes.

Stalin's Bombshell

No material details are available yet but from the language of the brief cabled reports it appears that Marshal Stalin has dropped a veritable bombshell amongst his Allies. M. Litvinoff, so runs the report, has been released from his post as Russian Ambassador in the United Nations. When M. Stalin effected a change in Russian diplomatic representation at London, M. Maisky was transferred to the Russian Foreign Office in the responsible post of Assistant Commissar. This is not so in the case of M. Litvinoff. The sudden and summary action in regard to him does not make sense except on the assumption that M. Litvinoff's mission has failed, that Marshal Stalin is greatly dissatisfied with America and Britain and their plans and that this drastic action is a grave hint to them. But hint of what? Further developments will be anxiously awaited because of the well-known fact that there exist important differences between Russia and her Anglo-American Allies and that the Nazis, too, have been trying to sow discord among them.

FRANKLY SPEAKING

Quebec "Decisions"

Unofficial reports from Quebec say that American and British leaders have at last decided to accede to Russian demands. Offensive moves are now to be launched "to draw off the Germans from the eastern front", and lend-lease aid is also to be increased. These reports are yet to be confirmed, but if they are correct they are welcome. How urgent is the need for Britain and America to carry out, in their own interests, the promise to Russia is made clear by the Litvinoff affair. Equally welcome is the report that China, too, is to get increased aid both in men and material China's need is equal to that of Russia. In a sense it is, indeed, greater, because China has been neglected and suffered as no other country has. And it was time that something was done materially to relieve her. But all these reports are so good that they almost appear to be easy wishful thinking. Let us hope we are wrong.

Kiska Occupied

Many had been wondering when the Americans would launch the inevitable battle for the strongly defended base of Kiska, the only outpost left to the Japanese in the Aleutians. It appears that U. S. and Canadian troops have been in Kiska now for over a week, having quietly occupied it without any opposition on August 15. This is good news, indeed. But even more significant is the fact that the Japs had voluntarily evacuated it. Kiska had no doubt been isolated and made rather difficult to hold. But so were many other outposts on the Pacific front for which the Japs unfailingly fought to the last man. Does the evacuation of Kiska—disappointingly undetected by the Americans—indicate that recent events have forced the Japanese militarists into a state of nervousness so that they are now running away from their outposts? This may be too optimistic an interpretation.

Significant Event

But the fact remains that for the first time the Japanese have abandoned a base without any fight. And an extremely important base at that. Losses may have taught them the wisdom of saving men, material, aircraft and ships rather than clinging to an untenable position. But it is a significant event in that it constitutes a confession of Jap weakness as against their enemies. For the Americans the occupation of Kiska is otherwise important, too. In Jap hands it had lost its danger to North America. In American hands it becomes a great danger to North Japan and perhaps farther south. Kiska has a big air field so that Liberators can now raid the Kuriles in much greater strength than hitherto. More. The northern waters are now free for the American navy which can launch carrier based air attacks on many parts of Japan. The Japs have fled saving their garrison and material. But they have suffered a defeat of strategic potentiality.

Abuse Of Executive Authority

In releasing Sadashiv Shanker Bagaitkar and Govindlal Nathalal Parikh, who had been arrested at Poona on 9th December, 1942, and had since been detained as under-trial prisoners in Yeravda Central Prison, the Chief Justice of the Bombay High Court remarked that the whole case abounded in irregularities and "disclosed a very gross abuse of executive authority." Speaking in more general terms, His Lordship observed: "This case affords a remarkable instance of the confusion that exists in this country between the executive and judicial authority of the District Magistrate." This confusion has been a grievance for generations past but recent years of political struggle have only added to it. It will continue until the Judiciary is completely separated from the Executive. Such separation is necessary even under a popular Government. Else a party Government may be suspected of attempting to influence the judiciary.

"NAVAJEEVAN" SUSPENDS PUBLICATION INDEFINITELY

NAGPUR: The management of the "Navajeevan" a Hindi weekly of Nagpur, have announced the suspension of its publication with immediate effect.

In the course of a notice the management say that they were under the impression that papers which closed down due to some restrictions could resume publication without any let or hindrance. But the Central Government have drawn their attention to the fact that under the Newsprint Control Order no newspaper can be published on any kind of paper if it was not in regular publication on January 18, 1943. In view of this there is no chance of the "Navajeevan" reappearing for the duration of the war.

The weekly suspended publication last year.—United Press.

EXPORTS OF FOOD GRAINS

India Govt.'s Reply To Statements In Press

NEW DELHI, Aug. 22.

Since statements are still appearing in the Press that heavy exports of foodgrains from India, and from Bengal in particular, are continuing, the Government of India wish to state categorically that there is no foundation whatever for such statements.

In a recent Press Note it has already been made clear that the total export of foodgrains from India during 1942-43 was 370,000 tons, representing a steady decrease from the 1937-38 figure of over 900,000. Since the beginning of 1943 the monthly export figures from India have been as follows:—

(IN TONS)

1943	Wheat	Rice	Total
January	140	13,830	13,970
February	166	19,058	19,224
March	6	12,612	12,618
April	33	7,819	7,852
May	216	5,479	5,695
June	20,321	10,166	30,487
July	283	2,008	2,291
Total	21,165	70,972	92,137

The destinations have been Ceylon, the Persian Gulf or African ports and islands, where there are Indian communities. Over the same period total exports of rice by sea and by rail from Bengal have been less than 7,000 tons, of which exports outside India were less than 3,000 tons—mostly in January. Against this there were imports into Bengal of 70,000 tons, representing net imports of 63,000 tons.

FOR CEYLON

The export of foodstuffs to any place outside India without a licence is prohibited by a notification under D. I. Rule 84. In respect of foodgrains, sugar, spices, fodder and bran, licences are issued by Export Trade Controllers at the ports strictly in accordance with the instructions conveyed to them by the Food Department in the light of the food situation in the country, which is continually under review. Since July 1943, the export of foodgrains, except a very small quantity of pulses for Ceylon which, are not controlled foodgrains and the numerous requirements of Indians crews of merchantships, is absolutely prohibited. These latter quantities are negligible and have amounted to a few hundred tons only during the last eight months.

During the last twelve months no foodgrains of any kind have been exported by the United Kingdom Commercial Corporation.

INDIA TO REPLACE WHEAT

Statements have also appeared that Australian wheat received earlier in the year has had to be replaced by Indian.

There is no truth in these statements. Among the numerous shipments of wheat from Australia in the early part of this year to various destinations, including India, three shiploads, originally intended for India, were subsequently ordered to be diverted elsewhere. But the cargoes made a fast voyage and had already arrived in India and been distributed. The Government of India agreed to re-export the equivalent quantities, in order to save the places for which they were destined, from serious shortage.—A. P.

Ten-Point Rationing Scheme

NEW DELHI, Aug. 22.

The United Press learns that the Government of India have addressed all the Provincial Governments stressing the necessity of securing the help and goodwill of the Press for the prospective ten-point rationing scheme.

The following are the points:—

1. Rationing means the distribution of short supplies in an equitable manner and not reduction in consumption;

2. Rationing requires price control:

3. and 4. The policy and details of the scheme should be as far as possible uniform and comprehensive.

5. Rationing must have legal sanctions through special trained staffs.

6. Local food advisory councils or food control committees should be set up.

7. High standard of efficiency should be maintained among the staffs selected for the rationing scheme.

8. Local trade channels and Government grain shops should be used.

9. Moderate buffer stocks of essential food must be accumulated.

10. The help and goodwill of the Press must be secured.—United Press.

Mudaliar On India's Role In Post-War World

MADRAS, Aug. 21.

A tribute to the valour and glory of Indian troops in the field of battle and robust optimism in the future of India were expressed by Sir.A Ramaswamy Mudaliar, Supply Member to the Government of India when interviewed by the Associated Press. Sir Ramaswamy said that the reputation of the 4th Indian Division stood as high as that of the most famous British or Allied troops in this war.

The great contribution that India has so far made in a variety of ways to help the Allied cause and the part that India is bound to play in the postwar world, said Sir Ramaswamy Mudaliar, is better appreciated in the several countries that he had visited during his recent tour than seemed to be the case in India itself. He was equally convinced that ideas of isolations and sovereign independence were today anti-deluvian notions and that India's future lay in equal partnership in a commonwealth of nations and in the near future at any rate in the British Commonwealth, whose concept of inter-relationship despite South African experiences is radically changing.—A. CONGRESS TO ABSTAIN FROM FRONTIER ASSEMBLY

Opposition Move As Protest Against Detention Of M.L.A's.

PESHAWAR, Aug. 22.

The Associated Press understands that the session of the Frontier Assembly, which has been curtailed by three days, will conclude on August 27.

The Premier and other Ministers will leave on a tour of different parts of the Province on August 28 to study the food situation. The Muslim Ministers will be accompanied by Qazi Mohd. Isa, a Pushto-speaking Member of the Working Committee of the All-India Muslim League, who is expected to arrive in Peshawar shortly. They will also address public meetings and organize branches of the League.

Khan Bakht Jamal Khan, President of the Frontier Muslim League, in a statement reveals that he is preparing a plan for effective propaganda in favour of the Pakistan ideal of the League and that Mr. Jinnah has been invited to visit the Frontier in October.

The Congress M.L.A.'s, who had gathered here for the Assembly session, are also gradually dispersing. Dr. Khan Sahib and Rai Bahadur Mehrchand Khanna may shortly proceed to Lahore where they may address a press conference.

It is learnt from Congress circles that the Opposition has definitely decided not to attend the Assembly till the ten detained M.L.A.'s are released.

Khan Aligul Khan, President of the Frontier Congress Committee, has left for Bhopal to see Khan Abdul Ghafoor Khan, a Congress M.L.A., who is reported to have joined the State Service.—A.P.

Album Of Photographs Of Gandhiji

Mr. Kanu Gandhi, grand-nephew of Mahatma Gandhi, has published the first of a series of albums of reproductions of unique photographs of Gandhiji which he himself took on various occasions. Living in close touch with Gandhiji at Sevagram and other places, Mr. Kanu Gandhi had opportunities which were denied to other photographers, amateur and professions, of taking snapshots of Gandhiji at close range in a variety of moods and situations. The present volume contains reproductions on a fairly enlarged scale of six photographs of striking character. Though one would have liked the printing of these reproductions to have been carried out in clearer tones, every Gandhi-fan would prize the present set. The volume is priced at Rs. 5. We are given to understand that the profits of the present album will be devoted to social service, while the profits from future publications of the series will go to Harijan uplift work. Copies of the album are available from Mr. Kantilal Mashruwala, C/o Bachhraj and Co., Mahatma Gandhi Road, Bombay.

One more Party, under the leadership of the son of Thakur Saheb of Mukundgarh, has joined us for relief work with Rs. 4,000. With a view to provide medical relief two well-known Vaids, Pt. Kapildeva and Syt. Sagarmalji has joined us from Rajputana.

How Rice Yield Is Improved

The rearing of fish in paddy fields not only to add to the supply of fish but to increase rice yields is advocated in the latest issue of 'Indian Farming.' Carp can grow to marketable size in four or five months in paddy fields, and by feeding on insects and weeds they help the growth of paddy. Practical hints on stocking and the care of fish in tanks are also given.

Another article explains the technique of mango budding 'in situ', the most economical method of propagating mango trees. A mango plantation is first laid out and seedlings raised from mango stones. When they are three years old they are budded in their original places. Even old trees can be treated and made to produce desirable varieties of mangoes. The budding technique eliminates the losses and disappointments of grafting.

SHARK LIVER OIL INDUSTRY

The establishment of the shark liver oil industry in Bombay Province made further progress in 1941, according to the Industries Department report for that year. The fishermen of Jaitapur organised themselves into a co-operative trust and diverted their fleet of about 20 boats from creek-fishing to shark-fishing.

The Bombay Government assisted the fishermen by supplying apparatus for the extraction of the shark oil, the cost of which is recovered from the sale proceeds of oil sent to Bombay.

The oil extracted at all centres except Jaitapur is sent to the Fisheries branch of the Industries Department in Bombay, where it is purified and tested for Vitamin 'A' content before sale. The total quantity of oil extracted was 6,000 lb., as recorded by the Department.

YOUNGEST GIRL GRADUATE

CALCUTTA, August 21.

Appearing as a non-collegiate student, a girl candidate has passed the B. A. examination of the Calcutta University this year at the age of 14 years and 7 months. Four years ago she established what is believed to be a record by passing the matriculation examination in the first division at the age of 10 years and 7 months.

This young graduate, Miss Bani Ghosh, is the daughter of Captain J. M. Ghosh, Chief Medical Officer of Tripura State.—A. P.

TETE-A-TETE

WITHOUT COMMENT—

Sirdar Aurangzeb Khan agreed that Pakistan was the goal of the Muslim League just as the Azad Punjab was the goal of the Sikhs, and he had been speaking on the subject at hundred and one meetings held recently. Khan Saadullah Khan (Muslim League) interrupted wanting to make some remarks. But the Speaker did not allow further controversy on the subject.

Sir J. P. Srivastava, Lord Linlithgow's Food Member, is reported to be *en route* to Calcutta for a five days' stay.

There is, however, no truth in the report that owing to the food crisis the Honourable Knight intends to ban all Lunches and Dinners and "At Homes" in his honour.

* * *

Personally, of course, we reject the very suggestion that there is any food crisis at all. For, we fully concur with Mr. Amery that the whole trouble is due to Indians gorging themselves over much.

Sir Samuel Hoare, who has returned to Madrid, describes his conference with General Franco as "most cordial."

That's what we the admirers of Sir Samuel feared.

Messrs. Roosevelt and Churchill are reported to have discussed plans to draw off Nazis from the Eastern Front.

They had better hurry up lest Marshal Stalin push his own plans too far, the plan, for instance, of drawing off Russian Ambassadors from the capitals of his Allies.

Yes, the latest is M. Litvinoff who has for the second time in his career been drawn off abruptly by M. Stalin.

But there the history ends. The fear is groundless that it may repeat itself. Amen.

Talking of history, the Americans and the Japanese have made it in the far north of the Pacific front, in Kiska to be exact.

The Americans landed in Kiska unopposed and then discovered that the bird had well and truly flown.

It is announced from Quebec that President Roosevelt will spend Wednesday in Ottawa.

Somebody had better proceed to spend a few days in Moscow before it is too late.

I. C. S. OFFICER IN MURDER CASE

Prosecution Witness Won Over By Defence?

LUCKNOW, Aug. 21.

There was great flutter in the court room when sensational allegation that one prosecution witness was won over by the defence was made during the trial of Mr. B. B. Singh, I.C.S. for the alleged murder of his maid-servant and removal of her dead body, commenced today before the City Magistrate with the Court house fully packed. The principal witness, Mr. Christie, I.C.S., Finance Secretary was examined by the prosecution. Mr. Christie deposed that Mr. K. S. Misra, I.C.S. one of his Deputy Secretaries, rang him at 11 a.m. on May 27 informing him that he wanted to meet him and convey something urgent and private. The witness was holding a meeting at that time but later on he himself went to Mr. Misra's room. Mr. Misra told him that he learnt that Mr. Singh's maid-servant had been severely beaten and that people were saying that she died. He also told the witness that Mr. Singh had gone away somewhere during night and returned next morning.

Three more witnesses were taken up after cross-examination of Mr. Christie.

The Crown Counsel filed an application to the effect that the prosecution witness Tandon was won over by the Defence and Prosecution would not produce them.—United Press.

Sports For Scarcity Relief

Floods have caused havoc in many parts of the country. In Bengal and Rajputana and in other parts the loss of men and money is immense. I, therefore, draw attention of the sporting community on the occasion to come forward for a humanitarian work. I suggest, if sporting associations like the Cricket Club of India or the W. I. F. arrange matches to help relief work, they can collect thousands of Rupees by their gate-money, which can be be utilised for the relief work for the flood and famine areas.

Sophia College

With reference to a statement reported to have been made at the meeting of the Senate on August 18th, that the Sophia College authorities were keeping the letter but not the spirit of the assurances given to the University with regard to proselytizing activities, I wish to affirm emphatically that this is an unfounded and utterly false allegation. The truth is that neither Principal nor members of the Staff knew anything at all about the incident reported in the Press as mentioned at the Senate meeting! This I wish to insist upon and I repeat that we have always acted in accordance with the letter and the spirit of the assurances given, both before and after they were formulated.

The Half-Column
By "Dim"

At the Metro is the second-week of RANDOM HARVEST which will give a run to any other picture of the year for the Academy Award. That, however, is not so important as a new star which is born in this picture and I am willing to sacrifice my reputation (such as it is) on that. I think her name is Susan Peters. She plays the little girl, Kitty, who is infatuated with her Uncle Charles. Her performance, maiden as far as we know, is one of the most brilliant I have seen. If Hollywood casts her well, she ought to hit the front line in her very next appearance. But she must play not too often. To massproduce her would be cutting short her career, which I feel sure will make her leave her footprint on the sacred pavement of fame where great ones before her have left theirs.

In her short performance she steals the picture from both Colman and Garson. Her lunch at the Savoy is perfect, ending with the line where he proposes to her and she asks him to take her out somewhere and kiss her. Likewise the secene in the chapel is delicately done. She is not silly nor sentimental in those tense moments of highly-strung emotion.

STABILISATION OF CHARCOAL PRICES IN THANA AND COLABA

The Government of Bombay is taking measures to stabilise the wholesale price of charcoal in the Thana and Kolaba areas at about Rs. 70 per 100 cubic feet, F.O.R. or F.O.B. If, despite these measures, the prices rise much above this level, it is likely that the Government will requisition stocks.

Let not others laugh at you. Gain 5 to 10 lbs. of solid flesh, blood and bones in your system.

If your vitality is low, or you are run down, worn out and exhausted and quite unable to enjoy the worldly pleasures there is nothing to worry about. Try King of tonics EVEREADY TABLETS first of its kind in the market.

Eveready is a purely herbal preparation extract of rare herbs rich in "NECTAR DE-VITA" a peculiar substance described by an Eminent Scientist Sir Arthur Shipley, F.R.S. as "THe most wonderful substance in our world." Sir J. Arthur Thompson says: "All life depends on this substance." This peculiar substance was fully known to the Ancient Greek and Egyptian Scholars of Herbal Research and was a sacred privilege of the Kings only to use for Rejuvenation. The Egyptian Mummies are a living authority as to how even dead bodies could retain their freshness from times immemorial to this day.

Cut Out R and Keep

The Bombay Rationing Order prescribes certain responsibilities and duties to be carried out by the ration card holders. They are summarised below and this may be cut out and kept for ready reference.

No person must obtain a ration card by giving false information as regards the number of persons in his family and other details.

No person must be included in more than one ration card. In any such case, a report should at once be made to the Ward Rationing Office. To draw rations for the same person on more than one ration card is an offence.

A ration card holder must inform the Ward Rationing Office whenever a reduction occurs in the number of members in his family as the result of permanent departure from Bombay or death and get the corresponding reduction made in the units on the ration card.

Temporary departures of more than seven days must also be reported to the Ward Rationing Office and in the absence of the person, no ration should be drawn for him.

Failure to notify departures of any person for more than seven days within ten days from the date of departure is an offence.

When the whole family leaves Bombay for good the ration card should be surrendered at the Ward Rationing Office.

Do not draw your ration of the commodity of which you have a month's stock at home. To do so is an offence.

It is illegal to transfer your ration card to any other person.

Changes of address should be promptly reported to the Ward Rationing Office.

The ration card is Government property and holders must preserve their cards carefully.

Whenever authorised persons such as Inspectors visit a ration card holder and ask questions, correct and full information must be given.

Whenever you do not draw your full ration, write to the Controller of Rationing, or put your letter in the box kept at your Ward Rationing Office. **ALL SUCH LETTERS ARE TREATED AS STRICTLY CONFIDENTIAL.**

And Here are Some Tips

Note down the serial number and code number of your ration card somewhere in your diary. This will help you in case you lose the card.

Whenever you apply at the Ward Rationing Office, always take your ration card with you.

If you have any enquiries or complaints to make regarding rationing or the food problem in general, write to the Public Relations Officer, Office of the Controller of Rationing, Royal Institute of Science Building, Fort, Bombay.

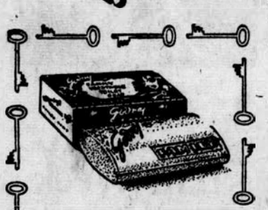
Would you believe that this high-quality toilet soap costs no more than ordinary washing soap? Then why deprive ourselves of the benefit and pleasure of using an out and out superior soap? How its foaming lather cleanses and refreshes my poor, tired body .... so different from the irritating, watery thing! They tell me this 'chavi' brand soap—like the other Godrej toilet soaps—is cent per cent pure soap, elaborately manufactured (as toilet soaps should be), from soothing vegetable oils only; it is not forty per cent water, as those washing soaps are. Its sweet scent tickles my nostrils; and the gay get-up is a treat for my jaded eyes. If I had only known earlier, I would not have wronged my human skin by using any odd soap, especially when this reliable Turkish Bath costs only as little as washing soap. Anyway, better late than never!



Another excellent toilet soap for economical budgets—delightfully perfumed, and attractively sealed in cellophane.
